Testimonial for Mrs. Dipti Modi of Allied Pumps

I Mayank Patodia, CEO of Advantex Solar, a supplier of Solar Power Solutions, would like to say that we were in need of certain pump equipment for a solar powered water pump installation and contacted Allied Pumps.

Diptiji came for the meeting along with her team and studied the entire requirement and importantly the application of the same. They made a number of valid suggestions which improved the quality of our product as well. She supplied us with the required equipment immediately and at a very competitive rate.

I thank Mrs. Dipti Modi and her team for the quick response and quality products. I will gladly and confidently refer them to others for their pump and pump related needs.

Regards

Mayank Patodia
