The water pump in my house broke down and we didn't have water for over 48 hours and with kids and eiders its the worst nightmare when there is no water. dipti ji and her team of dedicated people worked till 2.30 AM and finally fixed a new pump re-did the piping and finally made sure that we didn't have to suffer another day without water. I have never seen a team so dedicated and a leader so loved whose staff will stay till 2.30 am to get the work done. I cannot thank you enough for everything and wish you the very best for all your future endeavors.
